**Science Applications International Corporation (SAIC)
Contract NNL05AA01B
Task Order Statement of Work**

Task Order Number: NNL05AC33T (Task #4)

Requesting Organization: Science Support Office (SSO)

1. Task Order Title:

Living With a Star (LWS) Program Independent Review Team (IRT) SAIC

2. Purpose, Objective, and Background of Work to be Performed:

2.1 The Independent Review Team (IRT) for the Living With a Star (LWS) Program operates in accordance with the Terms of Reference for the Independent Review of the Living With a Star (LWS) Program. The IRT will conduct a series of independent reviews of the LWS Program and its projects throughout the life cycles of the projects to assess the technical and programmatic plans for accomplishing project objectives within the framework of the Program objectives as documented in the program and project Formulation Authorization Documents (FAD) and/or Program Commitment Agreement (PCA). The IRT will perform independent reviews of the analysis, definition, design, development, operations and termination plans for the projects in the program. During each phase of each project in the program, the IRT will provide an independent assessment of the probability of meeting project and program technical objectives on schedule and within cost. The IRT will also assess the project risks and measures available to mitigate those risks.

3. Description of the Work to be Performed: The Contractor shall perform the following task requirements:

3.1 The LWS program includes the following missions: Solar Dynamics Observatory, Geospace Missions (which contains two components, Ionospheric and Thermospheric Mappers and Radiation Belt Mappers), Space Environments Testbeds (SET) and Solar Sentinels.

3.2 Three types of reviews will be conducted during the life cycle of the program depending on the phase of the program and its projects at the time of the review. The scope and timing of each review will be detailed prior to conducting each type of review.

The three types of reviews are:

3.2.1 Independent Assessment (IA) – An IA will be conducted on an individual project contemporaneous with the scheduled reviews or milestones or at the request of the Science Mission Directorate (SMD) Associate Administrator (AA). The results of the IA are reported to the AA and others at his discretion.

3.2.2 Special Reviews - At least two types of special reviews will be conducted for each project in the LWS Program.

3.2.2.1 Confirmation Assessment (CA): During project formulation, a CA will be conducted before the project transitions from Phase A to Phase B and before the project transitions from Phase B to Phase C. For the SDO project, the CA performed before the project transitions from Phase B to Phase C will satisfy the requirements for a Non-Advocate Review (NAR).

3.2.2.2 During implementation, a mission readiness assessment will be conducted prior to launch.

3.2.2.3 Other special assessments may be required upon request.

3.2.3 Independent Implementation Review (IIR) – Conducted approximately annually for the LWS program starting after the SDO project begins implementation. It will be conducted contemporaneously with a project's Critical Design Review, Flight Readiness Review, or other appropriate project review, if available.

3.3 The SMD AA may request additional reviews to be performed by either by the entire IRT or a subset of the team. The scope, requirements, and schedule of these reviews shall be established prior to each review. The team will evaluate the following, as a minimum:

3.3.1 Progress against technical development plans and technical performance metrics;

3.3.2 Progress against risk areas and adequacy of risk management plans;

3.3.3 Compliance with current, signed FAD and/or PCA;

3.3.4 Adequacy of budget (total and phasing) and schedule, including adequate reserve allocations (financial and schedule);

3.3.5 Adequacy of workforce plan;

3.3.6 Adequacy of facilities usage plans;

3.3.7 Compatibility with NASA policy and procedures (NASA Strategic Plan, NPD 7120.4B, NPG 7120.5C, etc.); and,

3.3.8 Additional objectives based on the state of the program.

3.4 The IRT will develop independent life cycle cost estimate (ICEs) in support of the IAs during project formulation. Upon request, an ICE may be requested to support other SMD requirements. The scope of these estimates will be determined at the time of request.

4. Deliverables: Report on consensus findings of the IRT panel after each major Program or mission review.

- 5. Government Furnished Items: None.
- 6. Other Information Needed for Task Performance: None
- 7. Period of Performance/Schedule:

7.1	Milestones	Dates
7.2	Start Date	
7.3	SDO Rebaseline Review	
7.4	Flight S/W CDR	
7.5	Failure Detection Review	
7.6	High Speed data bus review
