For
Task Order 34 – Science Mission Directorate (SMD) Program Management Study**

Correspondence from the Contracting Officer has identified three potential categories of Organizational Conflict of Interest (OCI):

1. Unequal Access to Information: Situations in which a firm has access to non-public information as part of its performance of a government contract which may provide a competitive advantage in a later competition.
2. Biased Ground Rules: Situations in which a firm, as part of its performance of a government contract, has in some sense set the ground rules for another government contract by, for example, writing the statement of work or specifications.
3. Impaired Objectivity: A firm's work under one government contract could entail its evaluating itself, either through an assessment of performance under another contract or an evaluation of proposals.
