**Proposal Template/Checklist Development for Mini-TMC Evaluations  
Task Order Statement of Work**

**Task Order Number:**

**Requesting Organization:** Science Support Office (SSO), NASA Langley Research Center, Hampton, VA.

1. **Task Order Title:** Proposal Template/Checklist Development for Mini-TMC Evaluations
2. **Contractual References:**
  - 2.1 **Statement of Work Reference:** This requirement is pursuant to contract NNL05AA01B, between NASA Langley Research Center and [REDACTED]
  - 2.2 **Limitation of Future Contracting Reference:** In support of this task order, the contractor:
    - may have access to proprietary information and various other types of non-public data.

This work may give rise to potential organizational (OCI) and individual (ICI) conflicts of interest. In order to avoid these conflicts of interest NASA will select and approve all of the evaluators.

3. **Purpose, Objective, and Background of Work to be Performed:**

The purpose of this Task Order is to provide technical expertise to the Science Support Office (SSO) at NASA/LaRC for development of a template/checklist and other supporting documentation to enable the standardization of research proposals which require expert review short of the full scale TMC process. The template/checklist will allow the development of proposals that contain sufficient technical, cost, and schedule information to enable evaluation by a team of experts without having to refer to multiple documents or data sources. The proposal developed according to the template/checklist will be able to function as a stand-alone document that contains all relevant material for evaluation by the expert review team.

4. **Description of the Work to be Performed:**

4.1 **Template/Checklist for Proposal Preparation.**

The contractor shall develop a template/checklist and all supporting documentation to enable researchers to prepare a proposal which contains all relevant information necessary to allow it to be evaluated by a team of expert reviewers. The template/checklist will allow the preparation of a proposal that contains all of the relevant technical, management, and cost information in a stand-alone format. The stand-alone proposal will be able to be evaluated by a team of experts without having to refer to multiple documents and data sources. The proposal will be able to be reviewed in a manner that is less than a full TMC review, but still thorough and accurate regarding the technical, management, and cost aspects of the proposal

4.2 **Communications During Template/Checklist Preparation**

- 4.2.1 Telecons will be scheduled as necessary to report on template/checklist development, but not less than once every two weeks. Draft templates and checklists can be sent by non-encrypted email as it is most likely that no proprietary information will be handled during this task. If it becomes necessary to handle and or transmit any proprietary or non-public data during this task, the Remote Evaluation Site will be activated for use.

**4.3 Prepare Document and Support Presentation of Findings and Recommendations.**

The contractor shall assist the NASA Task Monitor in preparing supporting documents and presentation materials as required to:

4.3.1 Report the final findings and recommendations.

5. **Deliverables:** The contractor shall provide all deliverables as specified below:

5.1 Proposal Template/Checklist and supporting documentation

5.2 Final briefing material if necessary

6. **Government Furnished Items:** The Government will provide the following:

NASA Draft Standard Announcement of Opportunity

7. **Other Information Needed for Task Performance:** None

8. **Period of Performance/Schedule:** The period of performance for this task order shall be October 13, 2008 through December 31, 2008. Interim event dates may change based on direction of the Task Monitor. Changes to the completion date must be approved by the Contracting Officer.
